PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building production-grade React.js and Next.js applications. Skilled in component-driven UI design, REST API integration, and responsive development with Tailwind CSS. Currently building RecipeHub a full-featured food delivery and chef booking platform demonstrating proficiency in routing, state management, and scalable project architecture.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Bootstrap, React Router
State Management: Zustand, Redux Toolkit (RTK), Context API
Database: SQL, MySQL
Tools: Git, GitHub, GitLab, VS Code
Auth & Payments: JWT, Razorpay

PROJECTS

RecipeHub – Food Delivery & Chef Booking Platform | Live Demo

React.js · Tailwind CSS · Zustand · React Router · Swiper.js · JavaScript (ES6+)

- Built a dual-feature platform — users can browse restaurants, add dishes to cart (localStorage-persisted), and complete checkout; or book a personal chef for a home visit with cuisine and time-slot selection.
- Developed multi-page architecture with React Router including RestaurantDetail (tabbed menu + floating cart bar) and ChefDetail (profile strip, Signature Dishes, About, Reviews tabs + sticky booking sidebar).
- Implemented Zustand for global cart state management with real-time total calculations, item quantity controls, and cross-page persistence.
- Built fully responsive UI components across all screen sizes using Tailwind CSS dish cards, chef profiles, Swiper.js carousels, and modular booking forms.

Vadamalayan Hospitals – Appointment Booking Platform | Live Demo

React.js · Tailwind CSS · Axios · Formik · Yup · Razorpay

- Built a responsive multi-page hospital booking UI with React.js, Tailwind CSS, and React Router for doctor browsing and consultation booking.
- Integrated REST APIs via Axios for doctor listings and bookings; implemented Formik + Yup for reliable patient form validation.
- Integrated Razorpay payment gateway with success/failure handling — booking confirmation triggered only after successful payment.

EDUCATION

B.Tech – Information Technology 2019 – 2023
Prakasam Engineering College | CGPA: 6.47

STRENGTHS

- Strong problem-solving and debugging skills
- Quick learner, adaptable to new technologies
- Deep understanding of component-driven UI design

CERTIFICATION

- Full Stack Development – Pyspiders, Bangalore
- Python 101 for Data Science – IBM Cognitive Class
